

# THE CLASSROOM WITH NO ROOF

## CREATING AN ENABLING OUTDOOR CLASSROOM IN THE EARLY YEARS

**WEDNESDAY 20 MAY 2026**  
1.30 - 3.00 PM, Online

We know that the outdoor classroom is an important part of our provision throughout the whole of the year, but we can sometimes get a bit lost in how to develop the spaces to provide the best learning possibilities. If you are looking for some ideas or considerations for the development of your outdoor classroom then this webinar will help you to reflect on the space and plan for its development.

### We'll consider:

- Why outdoor learning is so important for our children in all aspects of their development
- Areas of provision and resources that will engage children in high quality play
- The critical role of the adult in the outdoor provision

**£60 PER PERSON**
