

WEBINAR FOR MATHS SUBJECT LEADERS

SMALL STEPS, STRONG FOUNDATIONS: EARLY MATHS IN ACTION

As a Maths subject leader, it is important to have an awareness of key mathematical skills and knowledge that young children need to become confident and competent mathematicians. An understanding of how early years practice and provision supports and guides children through their developmental journey is also essential. In this webinar you will explore:

- The statutory requirements in the Early Years Foundation Stage, along with supporting materials
- The developmental milestones that support progression in early mathematics
- Effective learning environments and how they support development in all aspects of mathematics
- The role of the adult in Early Years in enabling young children to be mathematicians
- Audit tools to support the Maths Subject Leader in identifying strengths and possible considerations for developing practice further

18 MAY 2026, 9:30 - 11:00

£60 per person
